Jura Bean to Cup espresso machines

Ideal for office and medium commercial use

- Plug and play compact bean to cup machines.

Grinds coffee beans on demand for a fresh drink

The Jura X7 bean to cup machine is a light commercial bean to cup machine capable of 100 cups of coffee per day. It is hand filled and just requires a 13amp plug socket. It can produce one cappuccino at a time, or two espresso's/black coffee's. Cappuccino is a one step process, with espresso made into the cup and milk foamed into the cup at the same time. Dual bean hoppers allow you to offer two different bean blends. Upto 200 cups per day capacity. £2495 + VAT. Includes boxed delivery, 6 espresso and cappuccino cups and saucers. 5x1kg paradiso Espresso Coffee Beans. Jura cleaning & descale tablets. One Claris water filter. Milk fridge Also Included.

Width 420mm Height 530mm Depth 500mm. Manual fill water tank 5.0litres. Plumbed in kit available. £99 + VAT
